Why Choose Sí?

Sí provides students with flexible, stackable qualifications in various career pathways, recognised worldwide. Our programme is designed for individuals seeking to fast-track their academic and professional goals. Through comprehensive courses and partnerships with top universities, Sí prepares students for successful careers and advanced degrees.

Programme Goals

- Provide foundational and advanced skills to prepare students for career readiness and further study.
- Offer flexible, stackable qualifications with seamless progression from diplomas to degree programmes.
- Deliver globally recognised qualifications accredited by ATHE and Qualifi, enhancing international career and academic opportunities.

Key Benefits

- **Flexible Learning:** Study at your own pace with online courses tailored to fit your schedule.
- **Global Accreditation:** Earn qualifications recognised by ATHE and Qualifi, opening doors to international career and academic opportunities.
- **Industry-Relevant Learning:** Engage in practical assignments and case studies that reflect real-world challenges, enhancing your employability.

Accreditation & Partnerships

Sí courses are accredited by ATHE and Qualifi, and recognised on the Ofqual Register. Our academic partnerships with prestigious institutions, such as the University of Bolton and Bangor University, provides seamless progression for students who wish to continue their studies with a Bachelor's top-up degree.

Programme Structure

Course Overview

This course introduces students to key psychological concepts, research methods, and human behaviour. It develops critical thinking and analytical skills, preparing students for further studies or entry-level roles in fields like counselling, education, and mental health services.

Admission

Students must be 17 years or older and hold a Level 3 qualification or equivalent. Non-native English speakers should meet a minimum English language proficiency level of IELTS 5.5 or equivalent.

Assessment Methods

Students will complete a portfolio of evidence, which includes a combination of 6 written assignments covering key topics within the psychology sector.

Technical

Our platform is fully technology driven; therefore, students will need a reliable PC, laptop, or tablet, or regular access to the aforementioned.

Students will need a stable internet connection with sufficient data to access online resources and participate in programme activities.

Course Structure

1. The Scope of Psychology (20 credits)

This module provides an introduction to the history of psychology, explores the different theoretical approaches, and discusses how psychology is applied in contemporary society.

2. Social and Developmental Psychology (20 credits)

This module covers key theories and research in social and developmental psychology, focusing on how social factors influence behaviour and how individuals develop over their lifetime.

3. Biopsychology (20 credits)

This module delves into the structure and function of the nervous system, exploring how different parts of the brain contribute to behaviour, and examines synaptic transmission and the fight-or-flight response.

4. The Development of Psychological Attachments (20 credits)

This module examines the formation of psychological attachments in both humans and animals, the impact of caregiver interactions, and the variations in attachment across different cultures.

5. Processes of Human Memory (20 credits)

This module investigates various models of memory, including the multi-store model and working memory model, and explores different types of long-term memory and the factors that contribute to forgetting.

6. Research Methods and Investigating Psychology (20 credits)

This module equips students with knowledge of research methodologies in psychology, including experimental design, statistical analysis, and ethical considerations in psychological research.
